

I'm 47  
...and I look good!

How will  
your  
pavement  
look at  
47?

47 Year Old Concrete Pavement  
US 49 N  
Forrest County, MS

If it is concrete, you can relax, knowing you have selected a pavement with a history of living past it's designed life. Just like this section of pavement on US 49 North in Forrest County, Mississippi that is 47 years old and has had little to no maintenance. Not too many other pavement types (or people for that matter) can boast that and still say they look this good.

Of course, looking good isn't all this concrete pavement does either. Another example of my many benefits is to provide better visibility at night by having a more reflective surface. That can mean fewer highway light poles and less energy consumption, just by being myself.

Find out more about Concrete Pavement's many benefits by calling:
