

I'm 55

**There's comfort
in knowing
you've designed a
pavement
that won't retire
before you do**

**55 Year Old Concrete Pavement
State Road 3
Panola and Tate Counties, MS**

Concrete pavements are just naturally durable, even at 6 inches thick like State Road 3 in Panola and Tate Counties. Concrete pavements have always provided the lowest life cycle costs by providing a long life with less maintenance costs. And now, you can treat your district to all the benefits of concrete for around the same up-front costs.

So go ahead and design a pavement that is free from perpetual maintenance and won't retire before you do. You and Mississippi's taxpayers will be glad you did.

Find out more about Concrete Pavement's many benefits by calling:
