

US 49 North in Rankin County, MS
46 Year Old Concrete Pavement

vs.

rutted asphalt

**Even after 46 years
concrete pavement
can't be beat down**

Concrete pavements are tough, durable, and simply can't be beat. Even after 46 years of service, concrete pavements like this section located on US 49 in Rankin County can be found all around Mississippi. These pavements continue to do the job year after year, carrying traffic loads even though many have received little to no maintenance.

So when it comes to winning the fight against heavy truck and vehicle traffic, pick the rigid pavement that can stand up to loads of pressure. Pick concrete.

Find out more about Concrete Pavement's many benefits by calling:
