

# New Deal Hwy Built in 1939

**Is your pavement  
an investment  
in Mississippi's  
future ...**

**70 Year Old Concrete Pavement  
Old Highway 8  
Grenada, MS**

**or just a  
perpetual  
expense?**

Concrete pavements are an investment in Mississippi's future by providing a reliable transportation source that does not require perpetual maintenance and overlays. Concrete pavements are durable, sustainable and often last longer than their designed life. Concrete overlay projects can be prepared for bid and placed as quickly as asphalt overlay projects but last much longer.

The American Recovery and Reinvestment Act of 2009 is intended to jump start our economy out of the recession. We need to make sure the funds are used to provide an investment that will pay off for our children and our country and avoid spending money on items that just become a continuing burden and perpetual expense.

Find out more about Concrete Pavement's many benefits by calling:
