

I'm 80
Built in 1929

**Is your pavement
an investment in
South Carolina's
future ...**

**80 Year Old Concrete Pavement
SC 39 in Saluda County
Monetta, SC**

**or just a
perpetual
expense?**

Concrete pavements are an investment in South Carolina's future by providing a reliable transportation source that does not require perpetual maintenance and overlays. Concrete pavements are durable, sustainable and often last longer than their designed life. Just take a look at SC 39 in Monetta, SC. This concrete pavement has been maintenance free for over 80 years.

The American Recovery and Reinvestment Act of 2009 is intended to jump start our economy out of the recession. We need to ensure the funds are used to provide an investment that will pay off for our children and our country and avoid spending money on items that just become a continuing burden and perpetual expense.

Find out more about Concrete Pavement's many benefits by calling:
